DETAILED OBJECTIVES

- To create a secure and efficient banking environment.
- To enhance brand identity through contemporary Islamic design.
- To ensure smooth circulation and better customer experience.
- To maintain privacy and transparency using glass partitions.
- To integrate modern technology with comfortable interiors.

PLANNING STRATEGY

- Progressive security zoning (Public to Restricted).
- Linear circulation for smooth flow and efficiency.
- Visual connectivity through glass partitions.
- Separate staff circulation for security and privacy.
- Consolidated service core for efficient operations.

CONCEPT STATEMENT

- The concept for Al-Falah Bank is inspired by Islamic values of trust, integrity and growth. The design combines functionality, security and elegance to create a contemporary banking environment.
- The space is carefully zoned to ensure smooth customer flow while maintaining privacy and operational efficiency. The use of glass partitions allows transparency and visual connectivity, while controlled access ensures security at all levels.
- A refined palette of green and gold reflects the brand identity, combined with natural materials, warm lighting and modern furniture to create a welcoming, professional and comfortable atmosphere.
- The integration of technology, ergonomic furniture and clear wayfinding further enhances user experience and efficiency in daily operations.
